

MODULE · RENTAL MANAGEMENT FOR FLEETS

Rental Management for Fleets.

Onboard customers, verify KYC, hand over vehicles, run QC on return and collect & manage security deposits — with Razorpay, damage debits and a tamper-proof paper trail.

Built as an add-on to Hyperion Fleet Management — or run it standalone. Everything you need to lease, lend or rent out a fleet, without the WhatsApp theatrics.

FLEET LESSORS

Leasing cars & CVs to drivers and ops partners

RENTAL PLATFORMS

Self-drive, short-term & long-term rentals

CORPORATE LEASING

Employee & crew vehicle programs

KYC · DigiLocker

Daily / Weekly / Monthly

Razorpay deposit

Damage debit

e-Sign agreement

Return QC

PROBLEM IT SOLVES

- ✗ Deposits collected off-platform; damages absorbed silently
- ✗ Handover photos scattered on personal phones & WhatsApp
- ✗ KYC done verbally — disputes hard to defend later
- ✗ Agreements live in inboxes, drives and filing cabinets
- ✗ No view of asset lifecycle or hand-pass history

HOW HYPERION FIXES IT

- ✓ Razorpay-backed deposit ledger with auto-debits
- ✓ Photo-backed handover & return QC in one app
- ✓ KYC + e-sign stored to a tamper-proof document vault
- ✓ Daily/Weekly/Monthly/Yearly rental plans & rules
- ✓ Complete hand-pass history per vehicle

FEATURES & STAKEHOLDERS

Every rental capability for a professional fleet business.

Twelve capability blocks covering onboarding, handover, QC, billing, deposits, returns, damages and reporting — end-to-end.

F.01

Customer Onboarding
