

MODULE · WAREHOUSE MANAGEMENT

Warehouse Management.

Scanner-first GRN, guided putaway, wave / batch / zone picks, packing, cycle counts and dock SLA — all from one Android-native mobile app, online or offline.

Run 1 site or 100. 3PL, D2C, distributor or OEM — one tenant, one app, many clients & nodes.

3PL OPERATORS

Multi-client, multi-SLA warehousing tenants

D2C BRANDS

Own and partner warehouses in one console

DISTRIBUTORS & OEMS

FMCG, pharma, cold chain & auto

Scanner-first

Bin-level Orders

Item Count / Bin

Cold Chain Alerts

Wave Pick

Cycle Count

PROBLEM IT SOLVES

- ✗ GRN done on paper, mismatches found days later
- ✗ No bin strategy — fast-movers stored far from dispatch
- ✗ Pickers walk 8–10 km a shift; mispick rate 2–3%
- ✗ Damages & short-ships absorbed silently
- ✗ Cycle counts annual — book stock can't be trusted

HOW HYPERION FIXES IT

- ✓ Scanner GRN with live variance & auto-chargebacks
- ✓ ABC zoning + guided putaway; fast-movers near dispatch
- ✓ Wave / batch / zone picks; mispick < 0.2%
- ✓ Every damage photographed, logged, vendor-tagged
- ✓ Daily cycle counts — stock accuracy > 99%

FEATURES & STAKEHOLDERS

One scanner-first WMS. Every capability you need.

Twelve capability blocks covering inbound, putaway, picking, packing, transfers, counts, dock SLA, vendor scorecards and ERP sync.

F.01

Inbound & GRN

ASN, unload, SKU-level scan, short-ship & damage.

F.02

Bin & Zone Master

Site → zone → aisle → rack → bin; live item count per bin.

F.03

Guided Putaway

ABC velocity, volumetric fit, suggested bins.

F.04

Pick Strategies

Single, batch, wave, zone picks with optimised paths.

F.05

Packing & Dispatch

Multi-box, weight, carton, courier manifest.

F.06

Cycle Counts

Daily, blind, surprise audits with variance trail.

F.07

Transfers / STO

Inter-warehouse transfers with in-transit ledger.

F.08

Dock & SLA

Dock door scheduling, gate in/out, SLA alerts.

F.09

QC Lanes

Quarantine suspect stock with photos & codes.

F.10

Vendor Scorecards

Short-ship %, damage %, on-time, label quality.

F.11

Cold Chain Alerts

Enable temperature thresholds per bin/zone; alarms on breach.

F.12

ERP Sync

Two-way with SAP, Oracle, Tally, Zoho, custom ERPs.

Warehouse Manager

Live KPIs, SLA, productivity, exceptions

Inbound / Dock

Scanner GRN, short-ship & damage logging

Pickers / Packers

Task queue, scan-guided flow, dispatch

QC / Audit

Quarantine, photo evidence, credit notes

INTEGRATIONS

SAP

Oracle

Tally

Zoho

EasyEcom

Unicommerce

Shiprocket

Shipway

Two-way ERP sync, marketplace OMS connectors (EasyEcom, Unicommerce), courier & label printing via Shiprocket and Shipway, and an open API for custom integrations.

PILOT AT A GLANCE

Setup time	2–3 weeks
Go-live	Week 4–6
Target accuracy	> 99%
Target mispick	< 0.2%
Hardware	Any Android · PDA · BLE
